Mrs. Wendy Greve, our middle school teacher and assistant principal, is retiring after 46 years of dedicated service in Lutheran education, with 32 of those years at Our Savior Lutheran School. Prior to coming to Our Savior Lutheran in 1987, she taught a Trinity Lutheran, Roselle, IL for 10 years and St. John's Lutheran in Winston-Salem, NC for 5 vears.

We thank God for Mrs. Greve's years of dedicated service. Her love for the Lord and children has been evident in her strong commitment to teaching God's children, as well as her encouragement and guidance to everyone in the Our Savior family. She has touched the lives of numerous students and families and has been a great blessing to us all.

Mrs. Greve's Favorite Bible verse: Colossians 3:17

"And whatever you do, in word or deed, do everything in the name of the Lord Jesus, giving thanks to God the Father through Him."

#### 11 PROVEN WAYS TO GET KIDS TO EAT MORE VEGETABLES

#### 10. USE BUTTER, GARLIC, BACON

There's nothing wrong with adding additional flavors to vegetables to make them more appealing to children. For a picky child, the most important thing is that he gets more comfortable and familiar with the rejected food. If that means serving it along with something you know he'll enjoy, like cheese or bacon, that's fine. I encourage you to use ingredients that are as close to real food (minimally processed without strange chemicals) as possible, but children can handle a few extra calories, especially if it helps them learn to enjoy spinach.

#### 11. KEEP AT IT

Some children will be difficult than others and will require more effort and patience. It's important to realize, however, that the habits they develop at a young age will remain with them long into adulthood. For your sake and theirs, it is worth solving picky eating problems as soon as possible. Continue to set a good example, create fun, positive experiences around food, let them help in the kitchen, enforce the one bite rule and do anything else you can to keep exposing them, in a pleasant way, to the healthy foods they reject. Your persistence will pay off.
